What is this type of insurance?

All motorists are required, by law, to insure their vehicles in order to drive them on roads and in public places. Car insurance meets this requirement and provides financial protection in the event of an incident which causes damage or injury. The level of protection provided will depend on the cover you select, a summary of which is provided below. It's a requirement that you have a telematics device fitted to your car. This will transmit data to us via a GPS signal, allowing us to better assess your driving skills and determine a driving behaviour score. If your score falls below a certain level you may have to pay an additional premium, please see sections 10 & 11 of the policy booklet for full details.
